DETAILED ACTION

Allowable Subject Matter

1. Claims 1 - 19 are allowed.

Reasons for Allowances

2. The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the applicant's invention of a multiple wire cable connector comprising an outer housing having at least one opening for a multiple wire cable to pass therethrough, at least one inner housing for arranging therein termination sockets for the wires of the multiple wire cable, the inner housing comprising: a front end for contacting a device to be electrically connected to the wires of the multiple wire cable, and a receiving end for receiving the wires of the multiple wire cable, wherein the inner housing comprises a circumferential extending between the front and receiving ends of the inner housing, and at least one cover for covering the receiving end of the inner housings, wherein the cover and the circumferential wall of the inner housing both comprise electrically conductive material, and wherein the outer housing comprises at least one receiving opening in which the at least one of the inner housing is arranged.

The prior art of Simmons (US 5,011,424) discloses, a multiple wire cable connector comprising an outer housing having at least one opening for a multiple wire cable to pass therethrough, at least one inner housing for arranging therein termination sockets for the wires of the multiple wire cable, the inner housing comprising: a front end for contacting a device to be electrically connected to the wires of the multiple wire

cable, and a receiving end for receiving the wires of the multiple wire cable, and at least one cover and the inner housing comprises a circumferential extending between the front and receiving ends of the inner housing.

However the prior art of record of Simmons (US 5,011,424) does not discloses, and at least one cover for covering the receiving end of the inner housings, wherein the cover and the circumferential wall of the inner housing both comprise electrically conductive material, and wherein the outer housing comprises at least one receiving opening in which the at least one of the inner housing is arranged.

Claims 2 - 19 depend from claim 1.

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Harshad C. Patel whose telephone number is 571 272 8289. The examiner can normally be reached on M - F; 8.00 AM TO 5.00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, T. C. Patel can be reached on 571 272 2098. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
